

Overview

Updated 08/13/2021

Asurint is proud to be the Premier Partner of Avionté for background screening solutions, offering an easy integration with Avionté's BOLD platform. Asurint helps to deliver an end-to-end view of the hiring process that improves workflow efficiencies, streamlines the recruiting process and shortens the onboarding cycle so you can hire the right talent with confidence.

The Asurint integration with AviontéBOLD allows you to use their screening services when performing your background check requests on prospective talent and the results are delivered to you in a report within the BOLD interface.

[For information on the Version 1 Asurint integration, click here to see our Background Check Integration \(v1\) article.](#)

Integration Features

- Self-serve integration setup
- Restricted user permissions
- System level background check placement requirements
- Company level background check placement requirements
- In-app ordering
- Mass ordering from talent search
- Mass ordering from job nominations
- Background check billing
- Expiring background check monitoring
- Background check talent search terms
- Supporting analyze reports
- Background check data uplifted to BI
- Supporting widgets
- Background check auditing

Integration Setup

This is a self-serve integration in that you are able to enable and configure it as long as you have your account credentials from Asurint.

Marketplace Integration Enablement

You will find the Asurint integration in the Marketplace and will have options to:

- Receive more information regarding Asurint and the integration offering
- Enable the integration yourself if you are an existing Asurint customer and have your Asurint credentials

Asurint Account Configuration & Validation

In order to utilize the Asurint integration in BOLD, you will need to enter the following credentials:

- Account ID – Provided by Asurint
- Username – Provided by Asurint
- Password – Provided by Asurint

Click the **Verify Account** button to validate the configured credentials.

Validation Errors

- If required credentials are missing
- If Account ID is invalid
- If Username is invalid
- If Password is invalid

Asurint Integration Settings [X]

Enter the User Account credentials provided to you by Asurint.

Account ID

Error: Account ID is required

Username **Password**
Error: Username is required Error: Password is required

One or more errors found, review form for errors.

[Cancel](#) [Verify Account](#)

Marketplace Integration Configuration

Once your Asurint account is validated, you will need to complete your integration configuration.

	Provided by Asurint	Each Asurint location ID needs to be mapped to a BOLD office

Marketplace Audit

Changes to the integration configuration are being tracked in the Marketplace Audit.

Able to filter the Marketplace Audit based on the following:

- Integration
- User
- Date Range

A search field is available to perform keyword searches within the Marketplace Audit.

User Level Permissions

There are 3 user level permissions that help ensure that users have the proper permissions and access to the background check data and features.

Property	Value	Description
Recruiter Review Access	True	Have the ability edit the background check Recruiter Review Status
	False	The background check Recruiter Review Status is visible but not editable
Request Background Check	True	Have the ability to order background checks
	False	Unable to order background checks
Bill to Client	Will be used with a future feature	

Job Requirements

System Level Job Requirements

You are able to configure system level background check requirements that would apply to every placement made in BOLD.

Navigate to Utilities > Table Editor > New Filled Job Requirements – Integrations

Configuration Steps

1. Select a package from the dropdown
2. Click +
3. Specify if the package is required to be passed or completed
 1. Passed – Validation will require the talent have the package completed and designated a “Passed” recruiter review status
 2. Completed – Validation will require the talent have the package completed
4. Specify the “Within Days” value
 1. Lookback period for a valid background check

Company Level Job Requirements

You are able to configure company level background check requirements that would apply to placements made for jobs with the company requirement set.

Navigate to Company > Requirements

Configuration Steps

1. Select a package from the dropdown
2. Click +
3. Specify if the package is required to be passed or completed
 1. Passed – Validation will require the talent have the package completed and designated a “Passed” recruiter review status
 2. Completed – Validation will require the talent have the package completed
4. Specify the “Within Days” value
 1. Lookback period for a valid background check

Placement Validation

Upon placing a talent who doesn't meet either the system or the company level job requirements, an error will be displayed in the placement aside.

The screenshot displays the Asurint Jobs interface. The top navigation bar includes 'myDashboard', 'Jobs', 'Talent', 'Timesheet', 'Invoices', 'Companies', 'Documents', 'Back Office', and 'Analyze'. The 'Jobs' section is active, showing a search bar and filters for 'Tier 1', 'Tier 2', 'Tier 3', and 'Tier 4'. The main content area is divided into two panels. The left panel shows a job listing for 'FG' (Charlie's Choccos - Gobstopper Branch, Eagan, MN) with a status of 'NOT POSTED' and a 'Tier 1' filter. Below this is a 'JOB - AT A GLANCE' section with a progress bar showing 5 Nominated, 0 Pipelined, 0 Web Applicants, and 0 Auto Match. A summary bar indicates 'Nominated' status with 'Total Positions: 1', 'Open Positions: 1', 'In Process: 5', and 'Offered: 0'. A table lists the nominated candidates:

<input type="checkbox"/>	Rank	Name	Credit To	Representative
<input type="checkbox"/>	?	Linda Parker	rupali pratapwar	rupali pratapwar
<input type="checkbox"/>	?	★ ADP Wise	Lakshmi Paranki	Lakshmi Paranki
<input type="checkbox"/>	?	★ John Test719	Ben Lampkins	Ben Lampkins
<input type="checkbox"/>	?	★ John Test719	Ben Lampkins	Ben Lampkins
<input type="checkbox"/>	?	★ Helen Nourse	Shawn Roush	Shawn Roush

The right panel displays a message: 'No valid people were selected!' and '1 person(s) have been removed due to issues described below:'. A list of issues includes: 'John Test719: A required Basic Package (within 2 days) is missing or expired'.

How to Order a Background Check

The Create Background Check aside and talent data requirements changes based on the Marketplace Consent setting.

Send a Single Background Check Request - With Provider Consent

1. Navigate to the Talent profile
2. Select Screenings tab
3. Click Create New Background Check → Opens Create New screenings aside
4. Enter required talent data – fields will prepopulate with talent data if exists
 - First Name
 - Last name
 - Email
 - Phone Number
5. Select Location
 - Will only display offices configured with a Location ID in the Marketplace that the current user has access to
6. Select Package
 - Can order multiple packages at one time
7. Set Expiration Days
 - The number of days before a user can order the same package again
 - Prevents duplicate orders
8. Click Save & Send
 - If talent data is entered or updated in the aside, data will be saved back to the talent record

The screenshot shows a web form titled "Create Background Check" with a close button (X) in the top right corner. The form is divided into two main sections: "Enter Required Talent Information" and "Select Background Checks Package".

Enter Required Talent Information

- First Name: *** Input field containing "Marty".
- Last Name: *** Input field containing "Fly".
- Email Address: *** Input field containing "zz@zz.com".
- Mobile Phone: *** Input field containing "6511231231".
- Drivers License:** Empty input field.
- Drivers License State:** Dropdown menu.

Select Background Checks Package

- Location: *** Dropdown menu.
- Package: *** Dropdown menu.
- Expires (days): *** Input field containing "365" with a trash icon to its right.

At the bottom left of the form is a green button labeled "Add Background Check". At the bottom right are two buttons: "Cancel" and "Submit & Save Talent".

Send a Single Background Check Request - With Staffing Company Consent

1. Navigate to the Talent profile
2. Select Screenings tab
3. Click Create New Background Check → Opens Create New screenings aside
4. Enter required talent data – fields will prepopulate with talent data if exists
 - First Name
 - Last name
 - Address
 - SSN
 - Date of Birth
 - Email
 - Phone Number
5. Select Location
 - Will only display offices configured with a Location ID in the Marketplace that the current user has access to
6. Select Package
 - Can order multiple packages at one time
7. Set Expiration Days
 - The number of days before a user can order the same package again
 - Prevents duplicate orders
8. Click Save & Send
 - If talent data is entered or updated in the aside, data will be saved back to the talent record

Order Request Validation Errors

When there is an issue with the talent's data that would cause failure in creating an order with Asurint, an error will be displayed in the aside.

Example: Incorrect education "To" value

Incorrect Value: 2020

The screenshot shows the 'Education' form in the Asurint interface. The form includes fields for School, Degree, Field, From, City, Country, School Type, Degree Type, GPA, To, and State/Region. The 'To' field is highlighted with a red arrow, indicating an incorrect value of 2020. The 'From' field is set to 2015, and the 'State/Region' is set to Minnesota.

The screenshot shows the 'Create Background Check' dialog box for Denna Harp. It displays a red error message: "Request failed validation. See errors below. Talent data not saved." Below this, the 'Request Validation Errors' section lists the error: "Some School: Graduation date (end date) must be provided. Expected format MM/DD/YYYY (example: 01/25/1995)". A summary message states: "1 request was failed. See errors below." At the bottom, a table shows the package name and the error details.

Package Name	Package Errors
Standard Criminal Package	Asurint validation failed. Background check package order could not be completed. See validation errors for details.

Mass Ordering - With Provider Consent

1. Navigate to the Talent search page
2. Select up to 15 talent
 - If more than 15 are selected, you will receive an error when ordering
3. Click the Mass Action dropdown
4. Select Mass Background Check
5. Select Location, Package, and Expires values
6. Click Continue

Background Check Management

There are a few tools to help you manage your background checks and results efficiently so you can place talent on jobs quickly.

Talent Screening Page

Once a background check is ordered, it will be added to the Talent > Screening page.

The screenshot displays the 'Background Checks' management interface. At the top, there is a navigation bar with tabs for Resume, Educat..., Work HL..., Docum..., Comm..., Referen..., Tax, Tags, EEO, **ScreenL**, Activities, Tasks, Onboar..., Timesh..., Results, Placem..., and Restrict... A 'Create a Background Check' button is located in the top right corner.

Below the navigation bar, there are filter options: 'Talent Given Consent' (set to 'Yes') and 'Select Date of Consent' (set to '08/06/2021'). There are also dropdown menus for 'Asurint', 'Select a Package', 'Select a Status', and 'Select a Score', along with a 'Remove Filter' button.

The main content area contains a table with the following columns: Provider, Order Date, Completed Date, Package Sent, Status, Score, Adverse Action, View Report, Details, and Recruiter Review.

Provider	Order Date	Completed Date	Package Sent	Status	Score	Adverse Action	View Report	Details	Recruiter Review
Asurint	Aug 12, 2021		eScreen (Recruiter Flow)	Pending Recruiter Action					
Asurint	Aug 9, 2021		Location Two Package	Results Pending		Initiated			
Asurint	Aug 6, 2021		Location One Package	Results Pending	REVIEW	Contested			

Features & Field Definitions

Field	Description
Consent Fields	Used to indicate if the talent completed a background check consent form If the Marketplace consent setting is set to Staffing Company and the Talent Given Consent field is set to No, the Create a Background Check button will be greyed out
Table Filters	Allows you to filter the orders by provider, package, status, & score
Provider	Displays the provider the background check was ordered through
Order Date	Date the background check was ordered
Completed Date	Date results are received from Asurint
Package Sent	Name of package ordered
Status	Current state of the order Status Values: Sent, Pending Signed Consent, Pending Talent Action, Pending Recruiter Action, Results Pending, Completed
Score	Custom score value sent back from Asurint
Adverse Action	Dropdown field that allows for manual tracking of the pre-adverse action status of an order Status Values: Initiated, Contested, Cleared, Adverse Action
View Report	Gives the user access to the detailed results on Asurint's site Report button will be displayed once results are received from Asurint User will only be able to view the report if they have the proper access through their account with Asurint
Details Button	Displays additional order information
Expires On	Displays the date the order will expire on Once the expiration date is passed, the package can be ordered again for that talent Date can be edited if needed Status Values: Not Reviewed, Meets Requirements, Doesn't Meet Requirements
Recruiter Review	Automatically set to Meets Requirements if the score sent back from Asurint is "Passed" Automatically set to Doesn't Meet Requirements if the score sent back from Asurint is "Failed"
